

# GOODNESTONE PARISH COUNCIL

## HAVE YOUR SAY

### 20MPH LIMIT FOR GOODNESTONE AND CHILLENDEEN

Goodnestone Parish Council has been working with KCC Highways to try and make our roads safer in Goodnestone and Chillenden. The current proposal (Project 1 and Project 2) is to implement a **20MPH** speed limit in both villages in order to attempt to reduce the current incidences of speeding, near miss incidents and improve safety on the roads for all users.

The Parish Consultation is completed as part of the wider application process to capture Parish residents' support for the projects in both villages.

The costs of the Project to the Parish include the Survey and Safe Design process, the Traffic Regulation Order (TRO) and the implementation of each Project which includes road signage, road markings and traffic management.

Note: The TRO cost for both Project 1 and 2 is included in the Project 1 costings only.

**PROJECT 1** The Street Goodnestone from the corner of Catsole Hill into the Street up to the highway boundary (leading to the private road)

**COST ESTIMATE £4165 (including the TRO cost for both Project 1 and 2)**

**PROJECT 2** Chillenden Village Main Street up to Griffin Hill junction with Sandwich Road

**COST ESTIMATE £3200**

Please complete and return in the spaces below or under separate cover to either The Fitzwalter Arms, Goodnestone or The Griffins Head, Chillenden by

**FRIDAY 16<sup>th</sup> APRIL 2021**
